

Frank's Big Bore Tour

February 17-22, 2019

Required skill rating: 10

As the name suggests, this trip is about aggressive riding, big miles and smooth trails.

Participants must be skilled riders with up to date sleds and be prepared to safely operate a snowmobile on groomed trails at speeds ranging from 45 – 70+ mph. Expect to be outside on the sled for up to nine hours each day. You should be knowledgeable about your machine, proficient at problem solving and flexible.

The starting point is Quebec City. This trip is a large undertaking, with much of it taking place in some of the most remote regions of Quebec. Driver and sled must be in top shape.
