

The Great Gaspe

February 27- March 4, 2022

March 6-11, 2022

March 13-18, 2022

As the name suggests, this trip is about touring the “one of a kind” Gaspe Peninsula.

Participants should be prepared to safely operate a snowmobile on groomed trails at speeds ranging from 40 – 55+ mph. Expect to be outside on the sled for up to eight hours for each of the six days.

The starting point is Riviere du Loup (RDL). Your luggage is transported by truck and enclosed trailer to each night’s destination, relieving you of the task of attaching baggage to the sled. Other benefits of the support vehicle are the ability to more efficiently move sleds needing repair to the appropriate shop and allowing a person the option of riding in the truck should they become ill.
